## How to use Win-Boot to login unknown Windows.

Category: Computer boot floppy disks  
Q: ASP.NET MVC ListBox SelectedValue always null  
I've got a ListBox where the elements are nested within a List. In the List I have a property that should be set as SelectedItem (e.g. a string). But, when I select an item in the ListBox, the SelectedValue is always null. I can see the value in the debugger. This is a sample of the class:  
public class Customer { public int CustomerId { get; set; } public string FirstName { get; set; } public string MiddleName { get; set; } public string LastName { get; set; } public string Suffix { get; set; } public List Users { get; set; } }  
This is the HTML:  
@Html.LabelFor(m => m.Customers, new { @class = "col-sm-2 control-label" }) @Html.ListBoxFor(m => m.Customers, Model.Customers, new { @class = "form-control" }) @Html.ValidationMessageFor(m => m.Customers)  
This is the JS: \$("form-control").change(function () { if (\$(this).val() !=
